shipments to partners

18
countries

310
partner clinics and hospitals supported

1.2M
people reached with donated medicines (estimated)

2,800
health workers trained

A letter from our director

This year our partners asked more of us than ever, and together we answered. Thanks to the generosity of our donors, Acme delivered more medicine to more clinics in more places than in any year before.

From warehouses to the last mile, every shipment carried essential medicines to clinics serving families who would otherwise go without. Thank you for making it possible.

Director, Acme Medical Relief

STORY FROM THE FIELD

At Hillside Health Centre, the shelves are full

Nurse Halima has worked at Hillside Health Centre for eleven years. The centre serves 30,000 people across a rural district, many of whom walk for hours to reach it.

This year, Acme delivered four shipments of essential medicines to Hillside, including insulin, antibiotics and medicines for high blood pressure. Halima and her team used them to care for thousands of patients.

“The donations came at the right time,” Halima says. The centre is one of 310 partner facilities Acme supported in 2025.

Where we work

Acme delivered medicines and supplies to partners in 18 countries across Africa, Latin America, the Middle East and Asia, and responded to 9 emergencies.

- 9 emergency responses
- 64 new partner clinics
- 14 medical missions supplied

How we use every dollar

Programs 94% · Fundraising 3% · Management 3%

Most of our programs are donated products, valued at their estimated wholesale price.

Thank you to our 46 corporate partners, 22 foundations and more than 12,000 individual donors, and to the local partners who carry every shipment the last mile.
